

Aerial View (Google Earth) Looking North - of Proposed NEW Water Line Construction Area: from ML 1-11 to DJS 2-14 locations ONLY

1

Notes:

1. The proposed NEW line is approximately 3745' long
2. It would be laid in the ditch of an existing ranch road so there would be minimal new surface disturbance
3. Approximate route of the water line indicated in YELLOW, line would be buried 60" deep by a Trencher
4. The disturbed area would be a 10' (ten foot) wide area immediately adjacent to the east side of the existing road
5. Following 2 slides are "zoomed in" aerial views of northern (Slide 2) and southern (Slide 3) half of route

Aerial View of Northern Part of New Water Line Route

2

ML 2-10

ML 1-11

Existing Ranch Road

Notes:

The actual ROW for the new water line is immediately adjacent to the east side of the ranch road, the yellow line is showing the approximate route, and is offset further to the east so that the old Ranch road may be more clearly seen in these images.
